A qualification is awarded to an individual in recognition of his/her attainment of the required industry approved skills and competencies under the Singapore Workforce Skills Qualifications System (WSQ).

SINGAPORE WORKFORCE SKILLS QUALIFICATIONS SYSTEM

The WSQ seeks to facilitate flexible adult learning, improve access to skills upgrading and provide progression pathways for the workforce. The WSQ embraces the concepts of competency-based training, recognition of prior learning, open entry requirements and adult-centred learning methodologies, all of which aim to address adult learning barriers and increase access of working adults to training.

All skills and competencies referenced by WSQ Approved Training Organisations are validated by representatives from the industry, including leading companies, key training providers, industry associations, leading economic agencies and unions. With the rollout of the Skills Frameworks, the WSQ will be aligned to the skills and competencies covered in the Skills Frameworks. The Skills Framework is developed to support the SkillsFuture movement to promote mastery and recognition of skills, and to foster a culture of lifelong learning.

WSQ QUALIFICATIONS PROGRESSION PATH

WSQ provides a coherent and comprehensive system of qualifications which consists of the following levels:

- Graduate Diploma
- Graduate Certificate
- Specialist Diploma
- Diploma
- Advanced Certificate
- Higher Certificate
- Certificate

EXPLANATION OF GRADES GRANTED

- | | |
|----------------------|---|
| 1. Competent | Denotes attainment of the required industry approved competencies as assessed through WSQ accredited programmes |
| 2. Not Yet Competent | Denotes non-attainment of the required industry approved competencies as assessed through WSQ accredited programmes |
| 3. Exempted | Denotes attainment of the required industry approved competencies as assessed through non-WSQ programmes |

FOR MORE INFORMATION

Details on the WSQ are available at <http://www.ssg.gov.sg>
